

# Cincinnati Track & Field – All-Time Yards Rankings – Boys

## Introduction

The following lists recognize the top yards performers who have been student athletes at a Cincinnati-area based high school at the time of their listed performance.

## Purpose

To give recognition to the best performers that Cincinnati high schools have produced during an approximate century of high school track and field.

## Guidelines for Inclusion in the Top Yards Lists

In order to properly identify those individuals meeting criteria necessary for inclusion, it was necessary to develop an acceptable set of standards that would allow for proper categorization of performances of the past, present, and future in as much as is possible. In doing so, it has been agreed that identifying such performances should conform as much as possible with standards recognized by the NFHS, USATF, IAAF, and ATFS. In addition, it was necessary to identify those athletes that were eligible for inclusion based on these standards. The following criteria have been identified as defining that necessary for inclusion.

### Membership Eligibility

- The school must have competed in a Cincinnati area district meet for the majority of its duration. Given that the current format district meet has been around since 1965, criteria for inclusion prior to 1965 is for that school to have competed in either the old Cincinnati or Oxford District meets that led directly to the State meet for the majority of the period 1925-1965.
- The athlete must have competed for a recognized OHSAA scholastic team during the season said a mark was made.
- The athlete must not have entered college prior to the date of said performance.
- Relay team members must all be from the same high school team.
- Marks are allowable throughout the calendar year. However, in the case of seniors, the cut-off date for inclusion is August 31 of their senior year, so long as they have not entered college to that date.

### Performance Eligibility for Top Times

- *All* marks *must* be documented. That is, there must be evidence of the mark, the meet/site it was made at, and as near as can be ascertained, the date of the performance. Documentation can be meet results available at the meet or on the web, results in the newspapers, or some other form of official documentation (meet records listed in meet programs, etc.).
- *Not* acceptable for inclusion are listings of school records on school websites or some coach's or people's memories *unless* supported by other documentation of said performance. Too many school websites have been shown to contain errant data, and people's memories fade with time or misremember an occurrence. While these can help point statisticians towards other documentation that can support such information, they are not substantial enough to be called factual.

Relay Teams – Each relay team listed has at least one member that is different from another team.

- Note: Many teams consisting of the same four relay team members have multiple performances that are superior to other teams on the list. However, the purpose of these lists are to list the top 10 individual teams. Performance lists are kept separately.

## Conversion Equivalents

12 inches = 1 foot = 0.3048 meters (exact definition)  
 100 meters = 109 yards, 13 inches  
 110 meters = 120 yards, 10 ¾ inches  
 1600 meters = 0.99419 miles = 1749 yards, 28.12 inches
