

Cincinnati Track & Field – All-Time Yards Top Times – Girls

Introduction

The following lists recognize the top performers who have been student athletes at a Cincinnati-area based high school at the time of their listed performance.

Purpose

To give recognition to the best performers that Cincinnati high schools have produced during an approximate century of high school track and field.

Guidelines for Inclusion in the Lists

In order to properly identify those individuals meeting criteria necessary for inclusion, it was necessary to develop an acceptable set of standards that would allow for proper categorization of performances of the past, present, and future in as much as is possible. In doing so, it has been agreed that identifying such performances should conform as much as possible with standards recognized by the NFHS, USATF, IAAF, and ATFS. In addition, it was necessary to identify those athletes that were eligible for inclusion based on these standards. The following criteria have been identified as defining that necessary for inclusion.

Membership Eligibility

- The school must have competed in a Cincinnati area district meet for the majority of its duration. The athlete must have competed for a recognized OHSAA scholastic team during the season said a mark was made.
- The athlete must not have entered college prior to the date of said performance.
- Relay team members must all be from the same high school team.
- Marks are allowable throughout the calendar year. However, in the case of seniors, the cut-off date for inclusion is August 31 of their senior year, so long as they have not entered college to that date.

Performance Eligibility for Top Times

- *All* marks *must* be documented. That is, there must be evidence of the mark, the meet/site it was made at, and as near as can be ascertained, the date of the performance. Documentation can be meet results available at the meet or on the web, results in the newspapers, or some other form of official documentation (meet records listed in meet programs, etc.).
- *Not* acceptable for inclusion are listings of school records on school websites or some coach's or people's memories *unless* supported by other documentation of said performance. Too many school websites have been shown to contain errant data, and people's memories fade with time or misremember an occurrence. While these can help point statisticians towards other documentation that can support such information, they are not substantial enough to be called factual.
- No intermediate or en-route times (to a longer distance) are eligible for list inclusion at any distance, regardless of whether there was an official FAT measurement or not at the shorter distance.

Cincinnati Track & Field – All-Time Yards Top Times – Girls

Conversion Equivalents

12 inches = 1 foot = 0.3048 meters (exact definition)
 100 meters = 109 yards, 13 inches
 110 meters = 120 yards, 10 ³/₄ inches
 1600 meters = 0.99419 miles = 1749 yards, 28.12 inches
